

## OMNIA Partners

### » About OMNIA Partners

At Comfort Systems USA Southwest, we believe that leadership is defined by what a person does with others and for others. It is about making the whole Team better and more productive. It is measured by what the entire group accomplishes, not by the individual efforts of the person in charge. Leadership is never based on what someone does by and for himself.

Comfort Systems USA Southwest has a competitively solicited national cooperative contract awarded by Region 4 Education Service Center available through OMNIA Partners that meets state and local government requirements. Through the cooperative contract, government agencies and nonprofits receive contract savings at time of purchase with no minimum order required.

### » Ready To Purchase?
