## ***Service, Maintenance, and Repairs Plan***

HACI Service, LLC leadership has a tremendous amount of contracting experience in the Phoenix Market. While the economy was slowing in most sectors, HACI Service, LLC continued to grow successfully due to its concentration on existing facilities. When the new-construction market slows and government revenue decreases; maintenance and repair of existing facilities becomes exceptionally important to insure the Facilities operate efficiently. HACI Service, LLC currently maintains over 600 facilities throughout the entire state of Arizona.

HACI Service, LLC has various maintenance programs that allow the customers to customize a program based on the needs of the property. Our preferred customers (customers with maintenance contracts) get the benefit of priority service during the summer months for faster response times. Preferred customers also receive discounts on parts for repair and replacement parts.

HACI Service, LLC offers 24 hour emergency HVAC repair services; we are known for our very responsive service calls to our clients. We will respond quickly and resolve any issue your facility may have for HVAC. Our service vehicles carry many different types of parts at all times to have the ability to repair your HVAC issue 24 hours a day 7 days a week, including holidays.

## ***Project Experience***

HACI Service, LLC. has performed service/repair and maintenance work in Arizona for the past (13) years. Some of our customers consist of corporate buildings, warehouses, malls, casinos, etc. HACI Service, LLC also works with School Districts, State Colleges and City and State Government entities. HACI Service, LLC has a vast list of reference pertaining to the type of building the customer is located in. Please contact the office to view the reference list.
