

Maintaining Safe & Healthy Environments

At Mohawk Group, we are committed to the health and wellness of our employees, customers and the communities in which we live, work and play. This is why we continuously challenge ourselves to design and manufacture products with reduced environmental and social impacts. We also believe this commitment goes beyond a project's initial installation and we strive to provide our valued customers and end users with important information to maintain safe and healthy environments.

In the wake of current events, there is heightened concern regarding the proper methods to appropriately clean and disinfect hard surface flooring and carpeting in commercial applications. The first step to effectively maintaining any flooring system is a regular cleaning schedule and regimen. Mohawk Group's instructions for regular care and maintenance can be found here:

MohawkGroup.com/carpet/more/performance-and-technical?tab=tab6

If you have specific concerns related to COVID-19, we suggest consulting the guidelines outlined by the Centers for Disease Control and Prevention (CDC) for your specific type of facility. The link below will take you directly to the most recent CDC guidelines, including specific instructions for cleaning and disinfecting soft and hard surfaces in community facilities such as schools and daycare centers, office spaces and other non-medical settings visited by the general public:

CDC.gov/coronavirus/2019-ncov/community/organizations/cleaning-disinfection.html

The CDC guidelines also contain links to lists of disinfectants that have been approved by the Environmental Protection Agency (EPA) for use in mitigating the spread of viruses such as COVID-19.

Before using any of these cleaning solutions, consult the manufacturer's instructions and always remember to test disinfectants in an inconspicuous area.

If you have any further questions, please do not hesitate to contact your local account executive or Mohawk Technical Services at 800-833-6954. We are here to assist you.
